David Escobar

Highland, CA | 909-609-8956 | escxbar@gmail.com |https://www.linkedin.com/in/david--escobar/ | https://github.com/susanoos

Full-Stack developer-in-training with previous experience in the logistics and retail industries. Over the course of 5 years in the workforce, has developed inventory control, problem-solving, and communication skills, with expertise in intellij, VS Code, Command-Line, GitLab, and GitHub. Looking forward to joining a team with creative skills and being able to learn from one another.

RELEVANT SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS
Back End: Spring Boot, PostgreSQL, JUnit
Development Tools: IntelliJ, pgAdmin, Git, Maven
Methodologies: Agile, CI/CD, Microservices

SOFTWARE PROJECTS

[Vendo-Matic 800](#) | Virtual Vending Machine Application | **Java, OOP, File I/O**
Virtual vending machine application with command-line interface allowing users to deposit money, choose a product, and return the correct change. Inventory is loaded via a text file and transactions are also logged to a text file.
- Developed the methods to read the file and create new objects from the file to display the items on the CLI.
- Designed and implemented an algorithm for calculating change left after a transaction.

[TEnmo](#) | Money Transfer Application | **Java, Spring Boot, PostgreSQL, RESTful API, Spring Data JPA, Spring Security**
Peer-to-peer money transfer application allowing users to send, request, and approve money transfers. Front-end is a command-line application communicating with a RESTful API server in the back-end.
- Expected to be completed by the end of the program.

PROFESSIONAL EXPERIENCE

Fulfillment Center Associate • *Amazon, Rialto, CA*   **06/2021 - Current**
- Utilize software to determine which items to pick, processing 365 orders hourly, resulting in successfully fulfilling customers orders within the given time frame & consistently **ranking in the top 5%** of pickers.
- Process orders using software and problem-solving to pack items efficiently resulting in higher output of goods.

Warehouse Associate • *UPS, Fontana, CA*   **03/2019 - 10/2019**
- Navigated various technologies and utilized organizational skills to transfer inventory to new locations.
- Managed inventory using a RF Scanner, resulting in picking and packing 1000+ of orders per week.

Sales Associate • *Adidas, Ontario, CA*   **10/2018 - 03/2019**
- Assisted customers in finding the products they needed by maintaining current knowledge of department trends and inventory, leading to being the top seller multiple times a week with upwards of $10,000+ in sales.
- Increased efficiency of stockroom by managing inventory and maintaining a clean and organized space.

EDUCATION

Java Development Program • *Merit America, Virtual*   **Expected Completion 03/2023**
- A 21-week intensive program focused on Backend Java Development, including hands-on coursework in Java Development and Client-Server Programming (SQL, Spring, JPA, REST) as well as covering topics such as Data Structures, Algorithms, Design Patterns, Cloud / Microservice deployments, and DevOps (e.g. CI/CD)

Front-end Development • *Udemy, Virtual*   **01/2023**
- Developing in JavaScript, HTML, and CSS
